Sired by X one of the most popular Maine Anjou bulls and his dam was Supreme Champion here at the NCC. This purebred bull is destined for great things. He has a great set of running gear along with the look and build to generate both bulls and heifers. X Factor is good haired and good through his front 1/3. Expect him to go out and get it done in the pasture.

Husker is a young bull and 100% stout! He's got the muscle, the length and depth of body, and his running gear is 100% sound. His disposition is just as valuable as his phenotype and bloodlines. He has that soft eye and manner about him that makes him a pleasure to be around. Without question one of the easiest to halter break of any animal I have ever put in the barn. Review his numbers and take a look at his scrotal measurement too, he has a set on him for sure.

CG Diversity 220F ET offers endless opportunities. He shows and sells as a Maintainer, but he's a Registered Shorthorn Plus as well. Every single calf he sires will be a registerable Maintainer and Shorthorn Plus. The options don't end there as he does those things in a TH PHA and DS free package. With all that being said, the most impressive thing about this bull may be what he offers on the hoof. He's stylish and eye appealing from every angle and when put in motion floats effortlessly with power and dimension as he walks away. He will sire replacement heifers that will excel in fertility and longevity. His 12-year-old donor dam still weans the biggest calf every year. She never misses and this bull is proof of that. (Shorthorn Plus papers will be transferred to new owner at time of purchase along with Maine papers)

This bred heifer is out of Unstoppable whose semen is rare, so she will be a great buy for anyone! She has been the Champion Market Heifer at many shows throughout the season and placed in the top 5 in the market animals at the Mid-Nebbraska Beef Show and at the Saunders County Progress Show. In addition, she has a great disposition and is easy to work with. This heifer was bred on 6/3/2018 to a registered calving ease Red Angus bull.

I fell in love with Elvira last fall when helping get cattle ready for the EMS sale. She was a class winner at the NCC Junior Show last year, and she will have a calf on the ground at the NCC this year. I believe her genuine functional skeleton and rib shape as well as her maternal look makes her a unique breeding piece. As my junior career comes to a close Elvira needs the opportunity to produce offspring for another junior to show and have success with.

Clubby look with a maternally focused pedigree on the bottom side. The Y150 cow is a consistent producer that stamps the added hip bone, a nice coat of hair, while keeping the soft, brood-cow look that goes back to her TC Freedom mother.

This female just kept getting better and better with her first calf heifer mother. She didn't skip a beat at weaning and easily rose her way to the top of our calf crop. She has show ring appeal with her perfect hips, nice rib shape, and sleek front end. She has excellent bone structure. Couple that with her pedigree, Lexus 112F is a breeding female deluxe.

We have successfully shown and sold heifers out of this flush the last three years at the Classic but, we think this might be our best heifer yet! The current trend is big, with enough power to go along, and boy does this one fit the mold. We think this one has a ton of potential down the line and will be a great project for any showman.
